

Caverion's head office has moved to Vantaa, Finland

Caverion Corporation Press Release 2 January 2019 at 10.00 a.m. EET

Caverion's head office has moved to Vantaa, Finland

Caverion's new head office is now located in Vantaa, Finland. The visiting address is Torpantie 2. Modernised premises bring together almost all Caverion employees working in the Helsinki metropolitan area, totaling approximately 450 people (Division Finland, Industrial Solutions and Group Functions). Caverion's Remote Center and Help Desk have located in the same premises already earlier.

The new head office is based on user-friendly facilities, which encourage new ways of working, open cooperation and innovative co-working. New facility solutions enable flexible working in digital environment and utilising the latest technology. There are several cosy spaces for coworking, project work, creative work and concentrated work.

Digital environment is strongly visible for both employees and visitors of the premises. For example space utilisation rate, indoor climate and energy efficiency are analysed digitally. Caverion will apply BREEAM-certification for the building during the spring 2019.

"Our vision is to be first choice in digitalising environments. Bringing all Helsinki metropolitan area professionals under one roof and to the same premises with our Remote Center is part of this journey. New working facilities increase cooperation and customers' awareness of our new digital solutions," says **Jorma Brusin**, Manager, Offices at Caverion Finland.
